

THIS IS A ROUGH SKETCH OF A PROPOSED
QUARTER PIPE, FLATBANK AND QUARTER PIPE.
WHICH WOULD BE LOCATED AT THE TOP END
OF THE SKATE PARK.

Possible options for accommodating the
quarter/flatbank quarter:

- Move the grind block to another location to make more room for the quarter/flatbank/quarter.
- Or, extend the park at the top end where the new quarters are proposing to be placed. This will give enough room for using the grind block and using the new quarter pipe set-up.
